

1. Machine wash COLD

2. Do NOT bleach

3. Wash alone or with like colors
(we strongly recommend washing alone)

4. Wash inside out for best maintenance of embroidery

5. Remove from washer immediately after wash

6. Do NOT wring out uniforms

7. Hang drip dry (do not use machine dryer*)

8. Do NOT bleach (did we say that already?)

and finally...

9. Do not take uniform through car wash
(Yes, this is a joke. Don't get any ideas, though.)

*Generally tumble drying will not damage uniforms, but in order to ensure the best longevity, we suggest avoiding machine dryers – especially with any heat settings!
